

ILLINOIS PUBLIC LIBRARY ANNUAL REPORT (IPLAR) OVERVIEW

IPLAR PURPOSES

The collection of Illinois public library information and statistics serves these purposes:

- The Illinois State Library, a division of the Illinois Office of the Secretary of State, is the agency charged by the Illinois Compiled Statutes [hereinafter referred to as ILCS] to: (1) compile, preserve and publish public library statistical information [15 ILCS 320/7(m)], and (2) compile the annual report of local public libraries and library systems submitted to the State Librarian pursuant to law [15 ILCS 320/7(n)].
- The Illinois State Library is a participant in the Institute of Museum and Library Services (IMLS) Public Library Statistics Cooperative (PLSC) that requires the collection of a core set of national public library data. All fifty states are participants in this data collection, analysis, and comparison program. PLSC questions are coded using this designation [PLSC ####], where #### indicates the PLSC question number.

Public libraries are encouraged to utilize the collected data, both at the state and federal levels, to compare themselves with their peers at the regional, state, and national levels.

IPLAR LEGAL DEADLINES

The IPLAR deadlines are detailed in the ILCS:

- For “municipal” (city, town, township, and village) libraries: the deadline is within 60 days after the expiration of the fiscal year [75 ILCS 5/4-10].
- For “public library districts”: the deadline is on or before September 1 of each year [75 ILCS 16/30-65].

For the FY2017-18 IPLAR, the fiscal year must END on one day during this timeframe: July 1, 2017 – June 30, 2018.

Non-compliance/non-submission of a web based IPLAR is a violation of Illinois library law and jeopardizes a public library’s receipt of grant funding from the Illinois State Library. Grants affected include, but are not limited to: Public Library Per Capita and Equalization Aid, Live and Learn Public Library Construction, and Library Services and Technology Act (LSTA).

AUTOMATION VENDOR

Counting Opinions (SQUIRE) Ltd. is the automation vendor for the IPLAR. The online tool designed to collect the IPLAR data is LibPAS. Approximately 20 of the 50 states use LibPAS to collect and report the public library annual report data.

For more information about using LibPAS select the PDF instructions or Help links. LibPAS is:

- (1) supported on both Windows and MAC operating systems and
- (2) best viewed using the most recent version of Chrome, Firefox, Safari, Opera, or Internet Explorer.

HELP WITH DATA INPUT AND UNDERSTANDING THE QUESTIONS

- **Online Help:** The Help link or Data Input Instructions PDF provides instructions on using LibPAS.
- **Instructions:** Online definitions are available in the survey (web IPLAR) by clicking on any question number. All of the information that is available in online help is also accessible and can be printed by clicking on the Instructions link (links are at the top of the LibPAS webpage).

Recommendation: Print a copy of both the Survey Instructions and Data Input Instructions using the PDF links.

SURVEY/QUESTION FORMAT

Question Format: The basic format for each question is: Checkbox (flag), Question Number, Question, Notes, and Answer Box for Current Year Data. For some questions, the previous year's answers will display to the right of the current year answer.

Current Year Data Answer Box: The answer box for the current year data may:

- be pre-populated with data collected by the Illinois State Library or other data;
- be blank for completion;
- have drop down menus for appropriate choices;
- be locked (grayed out) in order to perform mathematical calculations or for ISL to answer specific questions (The user can cursor over these fields, but the user will not be able to input data.); OR,
- be a repeating group (more explanation of repeating groups is contained in this document).

Flag a Question: The user can flag a question as a reminder that the question is incomplete and needs further work or investigation. Check the box next to the question to flag a question.

Notes/Annotations: Select the notepad icon associated with the question to add a note. You may be prompted to enter a note if the data entered triggers an edit check. Question Notes: Private or local notes can be added by selecting a question link. These local notes are not shared and can be used to store a local definition or process used to gather the information.

EVERY QUESTION MUST BE ANSWERED

- **Question Not Applicable or Answer Not Known:** For all questions that do not apply (branches, referenda, district supplement if the library type is not a public library district, etc.) OR that the answer is not known, **the user must enter either a zero or select the exception checkbox as appropriate;** otherwise the user will NOT be able to electronically submit the IPLAR.
- **Valid Responses to Questions:** Use the guidelines below for supplying appropriate answers to questions:
 - Enter "0" if the appropriate answer is "zero." (Use zero not alpha "o.")
 - Enter an estimate when an exact figure is not known—if the estimate can be pragmatically determined.
 - Select the exception box ("Unknown" or "Not Applicable") when the library does NOT know the answer, collect the data, or is unable to supply the data.

QUESTION TYPES

"A," "B," and "C" Questions: Some questions have an "a," "b," and sometimes a "c" component. If data has been pre-populated, then the "A" component is locked (grayed out). If the answer has changed enter the correct answer in the "B" component. This quickly alerts Illinois State Library staff to changes that must be made or that will need to be fixed before our State's data is submitted to the federal level. The "C" question captures the reason why the data varies from one year to another.

File Upload Questions: File upload questions allow libraries to upload files to provide supporting documentation for certain questions. For example, if question 1.23b (relating to service area population change) is answered by providing a new population number, the file upload question will appear on the following line for the user to upload legal proof of the population change. IPLAR has the following questions that use this feature:

Documentation of Legal Population Change (Question 1.23c)
Referendum Ballot Language Documentation (Question 4.7)
Proof of Certificate of Insurance for Library Funds (Question 8.18b)

Locked Questions/Answer Boxes for ISL to Answer: These are the questions that are locked (grayed out) for the Illinois State Library to answer.

Locked Questions/Answer Boxes that Perform Mathematical Computations: These questions are locked (grayed out) because the resulting answers will be mathematical formula computations based on previous answers.

Narrative Questions: Narrative questions permit question answers to exceed 250 characters. The IPLAR narrative questions can be identified as those that ask the user for an explanation of a previous answer or comments on a certain topic.

Repeating Row Questions: Repeating rows are “groups” of repeatable questions that allow the user to add as many answer boxes as needed to that section to provide accurate data about their particular library. Another row of answer boxes will automatically appear once data is entered in the current row. IPLAR has the following repeating rows:

Librarians: ALA-MLS (Questions 13.1 – 13.4)
Other Librarians: Non ALA-MLS (Questions 13.6 – 13.10)
Librarian Vacancies (Questions 13.27 – 13.33)
Newly Created Librarian Positions (Questions 13.34 – 13.39)
Eliminated Librarian Positions (Questions 13.40 – 13.46)

Select Number of Rows Questions: These questions will generate the correct number of rows when a previous question is answered. For example, if question 5.1 “Total number of board seats” is answered by selecting “5” from the drop down box, 5 sections for board member information will be generated. IPLAR has the following questions that use this feature:

Service Outlets (Questions 2.3 – 2.14)
Referenda (Questions 4.2 – 4.7)
Board Members (Questions 5.5 – 5.13)

FORMATTING ANSWERS FOR DATES AND PHONE NUMBERS

Format dates and phone/fax numbers as indicated below:

Dates: Answer “date” questions using the format indicated at the question’s end: mm/dd/year or mm/year. In most instances, a date selection tool will also pop up allowing you to select the correct date by clicking on the calendar.

Phone/Fax: Answer phone/fax questions using the format of numbers only. Do not include hyphens. Include the area code. Example: 1231231234

CERTIFICATION PAGE

The Illinois State Library no longer requires a paper copy of the certification page. All libraries will need to certify by having the library director, board president and board secretary type their name (as an electronic certification) along with the date in the boxes provided.

PUBLIC LIBRARY DISTRICTS SECRETARY’S AUDIT (Library Districts Only)

The Illinois State Library no longer requires a paper copy of the Public Library District Secretary’s Audit page. All public library districts will need to verify that the audit has been completed by filling out the information requested in the boxes provided.

IPLAR COMPLETION AND SUBMISSION PROCESSES: BASIC STEPS

1. Access the survey (web IPLAR) at this URL: <http://il.countingopinions.com>.
2. In LibPAS, read all the information in the Data Input Instructions or help links (LibPAS information) and the Instructions link (Illinois State Library information).

3. Click and explore the main links at the top of the Data Input screen:
 - Home
 - Print
 - Instructions
 - Help
4. Print an IPLAR Working Copy and the Help/Instructions, if needed:
 - Print the IPLAR worksheet in order to gather data and prepare a working draft by selecting Print on the Data Input screen or the Instructions link on the homepage.
 - Help is available on the homepage and on the help link.
5. Complete a working paper draft, then enter responses into the survey (web IPLAR).
6. When you have completed all the data entry into the survey (web IPLAR), then select the “Verify” button at the top, right corner of the page to view and resolve:

A. EDIT CHECKS:

NOTE: All edit checks must be answered before the survey (web IPLAR) can be submitted.

a. WHAT IS AN EDIT CHECK?

- i. An edit check is a data comparison of your previous year’s answer to the current year’s answer. Edit checks result when a current year answer is EITHER exactly the same as the previous year’s answer OR when the answer exceeds or drops below a national ratio (based on data collected from all 50 states). Edit checks are also generated when a question is answered for the current year and the question was not answered in the previous year.
- ii. An edit check does NOT indicate that you have answered the question with a wrong answer. Instead, the purpose of an edit check is for you to explain why your answer is exactly the same as the previous year’s OR why the data significantly increased or decreased from the previous year’s answer.

b. RESOLVING EDIT CHECKS

- i. In order to clear edit checks, you will need to enter an annotation in the notepad or correct the data provided, if needed. If entering a note, provide a brief, pragmatic explanation why the current year answer is correct. Example of an edit check: “LARGE CHANGE FROM PREVIOUS YEAR TO CURRENT.” Sample responses to this edit check are: “Less money for materials because the staff received raises.” “No e-books because our library discontinued the service.”
- ii. Most edit checks will be triggered when data is entered into the fields. The question/edit check will trigger a note window to appear on the screen which describes why the edit check failed and will ask for an annotation. If an annotation is not provided, the data will need to be updated.
- iii. Other edit checks may appear when you hit the “Verify” button. Edit checks will be highlighted in red. Select the notepad icon associated with the question(s) to add an annotation or correct the data, if needed, to clear the edit check.
- iv. Some edit checks may appear when you hit the “Submit/Lock” button. In this case, a single window will open listing the number(s) of the question(s) involved and the reason for the edit check(s). Select the notepad icon associated with the question(s) to add an annotation or correct the data, if needed, to clear the edit check(s).

B. UNANSWERED QUESTIONS

All REQUIRED unanswered questions must be resolved before the survey (web IPLAR) can be electronically submitted. These may include questions that you accidentally missed, flagged to return to later, or simply are not applicable and need to be answered by checking the exception box (Not Applicable, Unknown) or entering a zero, as appropriate.

C. FLAGGED QUESTIONS

Flagged questions are questions that you have checked to answer/revisit after gathering appropriate information. Before submitting your report you need to review these questions to make sure they have been answered.

7. Submitting the Survey (web IPLAR): Preliminary Steps
 - Step 1: Resolve all edit checks and all required unanswered questions.
 - Step 2: Click the “Submit/Lock” button in the top right corner of the page. The survey will run its final edit check process. If submission is successful, you should see “Thank you for submitting the survey for your library. The survey is now locked” in red text and the “Submit/Lock” button text will change to “Unlock.”
8. Print or save one copy for your files. You can print or save the IPLAR as a .pdf by clicking on the “Print” link at the very top of the page.

Please Note:

There is no paper packet submission for the IPLAR. All items must be submitted electronically. Proof of population changes, referenda ballot copies and proof of insurance/surety bond should be uploaded within the survey.

For administrative entities that offer ONLY books-by-mail service, count the hours that the outlet is staffed for service. Minor variations in public service hours need not be included. Extensive hours closed to the public due to natural disasters or other events should be excluded from the count.
2.13	Total number of weeks, during the fiscal year, this service outlet was open for service to the public [PLSC	This is the number of weeks during the year that an outlet was open to the public.

	714]	Note: Include the number of weeks open for public service for Centrals, Branches, Bookmobiles and Books-by-Mail Only. For each bookmobile, count only the weeks during which the bookmobile is open to the public. For administrative entities that offer ONLY books-by-mail service, count the weeks that the outlet is staffed for service. The count should be based on the number of weeks that a library outlet was open for half or more of its scheduled service hours. Extensive weeks closed to the public due to natural disasters or other events should be excluded from the count. Do not calculate based on total number of service hours per year at the outlet level. For example, by dividing total hours by the average hours open per week. Round to the nearest whole number of weeks. If the library was open half or more of its scheduled hours in a given week, round up to the next week. If the library was open less than half of its scheduled hours, round down.
2.14	Total annual attendance/visits in the outlet	This is the total number of persons entering the outlet for whatever purpose during the year. Note: If an actual count of visits is unavailable, determine an annual estimate by counting visits during a typical week in October and multiplying the count by 52. A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).d down.

Duration should not be an element in determining whether a transaction is a reference transaction.</p> <p>NOTE: It is essential that libraries do not include directional transactions in the report of reference transactions. Directional transactions include giving instruction for locating staff, library users, or physical features within the library. Examples of directional transactions include, "Where is the reference librarian? Where is Susan Smith? Where is the rest room? Where are the 600s? Can you help me make a photocopy?"</p> <p>If an annual count of reference transactions is unavailable, count reference transactions during a typical week or weeks, and multiply the count to represent an annual estimate. [If the sample is done four times a year, multiply totals by 13, if done twice a year multiply by 26, if done only annually, multiply by 52.] A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours.</p>
